

Mask E 40-S

Masking tape for the indoor painting, building and construction industries, as well as for general purpose works. Suitable for applications that don't require resistance to temperatures (up to 40 °C for 1 hour) and for works on glass surfaces, since it doesn't leave any stain or residue.

ADVANTAGES AND PERFORMANCES

- Good adhesiveness on irregular surfaces
- Residue-free removal
- Saturated paper for maximum conformability
- Compatible with the most common paints
- Removable without tearing
- Hand tearable

TECHNICAL PROPERTIES

		tolerance	test method
Adhesive:	natural rubber and solvent resins		
Total thickness:	105 µm	± 10 %	AFERA 5006
Adhesion to steel:	min. 1,8 N/cm		AFERA 5001
Tensile strength:	min. 25 N/cm		AFERA 5004
Elongation at break:	min. 7 %		AFERA 5004
Temperature resistance:	up to 40 °C for 1 hour		
Colour:	white and yellow		

The above values are the result of arithmetic averages from tests on sample productions and are not legally binding.

ARTICLES, DIMENSIONS AND BARCODES

Mask E 40-S yellow:	50 mm x 50 m	36 rolls	8051499030865

OUR PROPOSAL OF PACKAGING

- Sleeve with B/W or coloured (up to 5 colours) barcode label
- Harmonica
- Tower

RECOMMENDATIONS

It's a good rule to use the product within 6 months from purchase, because the unwinding force of the tape increases with time. The product must be stored in its box in a dry location protected from sunlight, at about 15 °C - 25 °C and 50% relative humidity. If stored in different conditions, the product must be reconditioned. After application, the removal of the tape must be done slowly without tears. Before applying the tape, always check if the surface is clean. Euromask disclaims any liability for any direct or indirect damage coming from the misuse of the product. Under normal conditions, the tape is not toxic and is not approved for medical use.

The a.m. values may be changed at any moment for production needs or technical updates.
