## OUR PROPOSAL OF PACKAGING

- Sleeve with B/W or coloured (up to 5 colours) barcode label
- Harmonica
- Tower

## RECOMMENDATIONS

It's a good rule to use the product within 6 months from purchase, because the unwinding force of the tape increases with time. The product must be stored in its box in a dry location protected from sunlight, at about 15 °C - 25 °C and 50% relative humidity. If stored in different conditions, the product must be reconditioned. After application, the removal of the tape must be done slowly without tears. Before applying the tape, always check if the surface is clean. Euromask disclaims any liability for any direct or indirect damage coming from the misuse of the product. Under normal conditions, the tape is not toxic and is not approved for medical use.

The a.m. values may be changed at any moment for production needs or technical updates.
