

Universal Double-Sided Tape

Adhesive tape provided with a bisiliconised larch coloured paper liner, faster than any glue. Excellent for exhibition stands, temporary assembly and do-it-yourself applications. Thanks to its flexible backing, it's suitable for temporary fastening of coverings on the floors and general light objects to vertical surfaces.

ADVANTAGES AND PERFORMANCES

- Flexible backing
- Good adhesiveness on irregular surfaces
- Excellent tack adhesive
- Hand tearable

TECHNICAL PROPERTIES

test method

Backing:	white BOPP	
Adhesive:	Hot Melt	
Total thickness:	140 µm	AFERA 5006
Tensile strength:	min. 40 N/cm	AFERA 5004
Elongation at break:	min. 150 %	AFERA 5004
Temperature resistance:	from - 10 °C up to + 50 °C	
Colour:	larch	

The above values are the result of arithmetic averages from tests on sample productions and are not legally binding.

- Sleeve with coloured half moon label

RECOMMENDATIONS

It's a good rule to use the product within 6 months from purchase, because the unwinding force of the tape increases with time. The product must be stored in its box in a dry location protected from sunlight, at about 15 °C - 25 °C and 50% relative humidity. If stored in different conditions, the product must be reconditioned. After application, the removal of the tape must be done slowly without tears. Before applying the tape, always check if the surface is clean. Euromask disclaims any liability for any direct or indirect damage coming from the misuse of the product. Under normal conditions, the tape is not toxic and is not approved for medical use.

The a.m. values may be changed at any moment for production needs or technical updates.
